### **Career Objective:**

The objective of my career is to work in an equal-opportunity organization. I love what I do, so all I would need from my firm is a good working environment. In next five years I see myself as one of the best developers in Bangladesh.

### **Career Summary:**

An experienced candidate with Masters in Computer Applications.

### **Special Qualification:**

JAVA, PHP, HTML, CSS, C, C++, SQL, Bootstrap, jQuery, Codeigniter and MySQL.

### **Employment History:**

**Total Year of Experience : 4.3 Year(s)**

1. **Applications Developer ( January 3, 2016 - Continuing)**

**Agency Delta**

Company Location : Sector-11, Uttara, Dhaka.  
Department: IT

2. **Software Engineer ( November 1, 2014 - December 31, 2015)**

**Karupannya Rangpur Ltd.**

Company Location : Rangpur, Bangladesh

Department: IT

**Duties/Responsibilities:**

I was primarily hired to establish an Enterprise Resource Planning (ERP) software system. I helped in developing the software by coordinating with the developer.

After the above task was achieved in three months, I went on to develop necessary software tools for the firm. I was appointed the team leader of a group of junior developers.

I also took interest in developing a website for Karupannya. This website was acclaimed by the management later. Detailed explanation is under the section Software Projects undertaken.

The internet connection often proved to be troublesome for us, the employees. So, I had an urge to eliminate this trouble. We had a Netgear router. I found out that, the best security could be achieved by using a cloud delivered enterprise security system. So, I utilized the services of OpenDNS. Eventually, I could monitor parental controls and access other tools of the router from my mobile device. I knew how to make my work smooth and that's what I did.

Assist to edit and format different reports, presentations, and multimedia files of program intervention.

To develop a software system to smoothen communication internally or externally.

Assist to prepare different kinds of presentations using Power Point and advance presentation tools and web tools on program areas.

To communicate with buyers like IKEA; explain and convince according to the need of the hour.

Assist to prepare abstracts, presentations and write up for conferences, workshops, seminars etc.

Lead a group of junior developers that built tailor made software as and when needed by any department.

Assist to take photo and video of different programmatic interventions and edit, produce and share.

Assist to circulate communication materials, research, reports, calendar, to parties.

Update the company communication policy and procedure as and when required.

Assist in preparing the annual report of 2014.

To design the company's website. Elaborate description of the company and the products were given along with professional photographs.

Support to formulate and implement internal and external communication strategy.
