## FULL STACK WEB DEVELOPER

**Dynamic web application developer** offering more than 3 years of experience in developing high end, mission-critical projects.

**Skilled in all phases of the application development life-cycle;** expert in WordPress, PHP, React, HTML5, CSS3, JavaScript, jQuery, Ajax, MySql and WAMP fanatical about quality, usability, security and scalability.

## PROFESSIONAL EXPERIENCE

**SALAH SOFTWARE SOLUTION (2016 to Present) – Sylhet, Bangladesh**  
**Web Developer,**

I have been working as a web developer at 2016. My aim is to provide design and development services to local clients and it is performing great. Since then, I have been providing high end design and development services to all awesome clients. It's a very good achievement for me since the last 6 months I have been working on **Theme-Forest** marketplace and successfully approved WP themes and React templates.

### **Accomplishments:**

Established relationship with the suitable CEO and confirmed high end services provided to the company.

Mentored the CEO by providing services on various development projects.

Organized by the company and company goals to reach the apex.
