Sibgonj , Sylhet

Dear Sir,

I would like to propose my candidacy for your position of Front End Developer which I saw advertised yesterday on the thousand careers Facebook page.

My professional experience includes bringing the wireframes of the UX designer to life through HTML5 and CSS3, as well as collaborating with Back End Developers to create a stellar finished product. I think **my skills and experience makes me a great fit for Atlas Digital.**

Here are some of my most relevant qualifications and accomplishments:

- Three month of experience as a Front End Developer at panacea it Sylhet.
- Crafted various website features using HTML5 CSS3 and JavaScript
- Developed and Implemented project scope and timelines based on the design-develop-deploy process
- Collaborated with UX designers and Back End Developers and ensured coherence between all parties
- Tested feature prototypes for bugs and user experience

I know how important the details are for a Front End Developer. My keen attention to detail and dedication to solving any problem at hand are what separates me from other candidates with similar qualifications. If you agree that I'd be a good fit for your organization, I would love to schedule an interview at your earliest convenience.

Sincerely,  
Joynal Abedin
