Dear Sir/Madam:

Upon reviewing your posting for “Internship” advertised on thousand.careers I was immediately compelled to submit my application for your review. I strongly believe that my proven skills and academic knowledge make me an ideal candidate for this position.

Since your company is a leading outsourcing company; it is implied that you would only hire the most talented people. This is the main reason that I would highly appreciate the chance of joining a leading and fascinating team as yours wherein hard work is acknowledged and rewarded accordingly.

I am a recent graduate of the Shahjalal University of Science and Technology, Sylhet with a Bachelor of Science in Computer Science and Engineering. This degree has prepared me well by developing my working knowledge in the full development life cycle of next-generation software, from initial requirement gathering to design, coding, testing, and documentation and implementation.

I have a strong Analytical skills, I work well with teams, and I want to be part of your company contributing to the further advancement of the company.

I would appreciate the opportunity to interview with you to further discuss how my qualifications will be beneficial to your company's success.

Sincerely,

Pranab Singha
