

MD SAIDUR RAHMAN RIAZ

FRONTEND DEVELOPER

Chattogram, Bangladesh | saidur.riaz1@gmail.com
+8801533393421 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Carrier Objective

I am a dedicated front-end developer building dynamic, responsive, user-friendly web applications. I prioritize performance, usability, and seamless integration to create efficient solutions. Passionate about learning, I continuously adapt to new technologies to enhance my development skills.

Skills

Front-End-Technologies: HTML, CSS, Tailwind CSS, Javascript, React, Next JS and Typescript.

Back-End-Technologies: Node Js, Express Js.

Authentication: Firebase.

Database: MongoDB.

Version Control: Git, GitHub, Vercel.

Projects

Car Rental Project

[Client Code](#) | [Server Code](#) | [Live Site](#)

Secure, Responsive & Role-Based Platform

Key Features:

- Responsive & User-Friendly: Enjoy a seamless experience on any device with an intuitive interface.
- Secure Booking: Easily book cars with a safe and reliable reservation system.
- Review & Feedback: Share experiences and read reviews to make informed decisions.

Technologies: Javascript, React, Tailwind CSS, Node.Js, Express.Js, MongoDB

Gaming Website

[Client Code](#) | [Server Code](#) | [Live Site](#)

Explore, Share & Build the Ultimate Gaming Community

Key Features:

- Responsive & User-Friendly: Enjoy a seamless gaming experience on any device.
- Game Contribution: Add your games and expand the collection.
- Community Reviews: Share insights and discover top-rated games.

Technologies: Javascript, React, Tailwind CSS, Firebase Node.Js, Express.Js, MongoDB

Medical Campaign Project

[Client Code](#) | [Server Code](#) | [Live Site](#)

A responsive platform for organizing medical campaigns and enhancing community healthcare.

Key Features:

- Paid Participation: Users can join medical camps through a secure payment system.
- Profile Management: Participants can update their profile and contact information.
- Role-Based Access: Organizers manage camps, while participants enroll and engage.

Technologies: Javascript, React, Tailwind CSS, Firebase Node.Js, Express.Js, MongoDB, Stripe, JWT.
