Job Application for Virtual Assistant

Dear Mr./Ms. to whom it may concern,

About Me

Just few days back I have completed my bachelor degree on computer science and engineering. While doing my bachelor have introduced with lots of things and which we all learn in university like having said that university is not the only place for studying academic books it's a platform for studying the world with courage. So basically passion comes true when your job relates your degree which you are dreaming off that's what I believe so diligently.

Why Staff India?

Well let me write first when I heard the name of Staff India, it's almost at the beginning of my university life. Most of the senior brothers and sisters of our university started doing their job right after completing their graduation as fresh graduate. From them I heard that Staff India is great opportunity for learning and dealing with international peoples which is very effective for the long in professional life. From that view I have choose Staff India to apply for virtual assistant post .

Why Me?

A virtual assistant is a self-employed administrative or personal assistant who works remotely for various clients. A view generates from that sentence is all you a have to work for a single person or a company virtually which is through online residing anywhere in the world. Keeping that in mind, strongly believe that I have very good interaction skills to interact with lots of people and can manage to maintain such virtual job.

Sincerely,

NABIL HASSAN

Attached: Curriculum Vitae, and look forward to hear from you about the job.
