RE: Application for full stack developer

Dear Sir,

As a highly motivated and dedicated student with strong communication and interpersonal skills, I would like to apply for the position of Full Stack Developer.

As a student I have been extensively involved in my course projects which helped me to develop my skills on the corresponding sectors like Angular 6, Firebase, Android, Java and SASS etc.

I am very stubborn with my work. When I target something, I try to achieve this at any cost no matter how hard it is or how long it takes to achieve.

I have developed several applications that are linked in my resume. I am keen to develop my professional skills by working with you. Waiting to hear from you.

Thanking you in advance for your time,

Md Shah Ali
