

Sir/Madam

I am applying for the position of 'IT executive' which was advertised on the thousand careers website.

I have completed my graduation in Electrical and Electronic Engineering from Shahjalal University of Science and Technology. Enclosed is a copy of my curriculum vitae that reflects my academic qualifications and other experiences gained through the cooperative academic program.

I look forward to learning more about the "IT executive" position and about staff india. I would welcome the opportunity to discuss about my education, practical skills and background that would qualify me to be a member of staff india.

Sincerely
Sowmik Kanti Deb
