January 31, 2018

You need an intern with a meticulous attention to detail and excellent full stack developer skills. My experience as I am practicing with web development for two years. I already make many project by PHP OOP. And I have many dynamic projects by Framework. I can convert PSD to HTML & HTML to WordPress. I can responsive web design by Bootstrap as like as client demand. Also, I can use Ajax, jQuery with oop PHP & Framework project and status as a new graduate student in my makes me an ideal candidate for the web developer position at Staff-India company.

I am comfortable performing a wide range of job duties. I am eager to contribute my enthusiasm and skills to Staff-India and to grow in this position.

My resume will give you a greater understanding of my qualifications. Please contact me if you have any questions.

Sincerely,

Sukesh Baishnab
