

Dear HR Manager

With a Bachelor's Degree in computer science and engineering, two years of hands-on experience creating and implementing front-end developing and web applications, and the ability to troubleshoot and solve problems in a timely and accurate manner.

I have been involved in numerous large-scale software releases and understand the importance of time management and open communication. While it may be easy to focus on the technical side of work, I've found that being able to express concerns, roadblocks, and alternative solutions to colleagues of varying technical backgrounds has been invaluable in my professional skills.

I hope to bring my knowledge, and future knowledge, to your company.

Attached is a copy of my resume that further explains my background and technical skills.

I can be reached anytime via my cell phone, +8801714727748 or via email at pinkuchanda654@email.com. Thank you for your time and consideration. I look forward to speaking with you more about this opportunity.

Best Regards,

Pinku Chanda
