OZIH UDDIN AL FUZAYEL

Summary: Experienced **QA Automation Tester** with expertise in Pytest, Selenium, Postman, and JMeter. Skilled in developing and executing automated tests for UI, API, and performance validation. Proficient in scripting robust test cases and building maintainable automation frameworks. Focused on early bug detection, improving test coverage, and streamlining QA workflows. Dedicated to delivering high-quality, scalable, and efficient automation solutions.

Experience: **QA Automation Testing (PyTest & Selenium Project Video)**

https://selenium-pytest-video.netlify.app/

- Developed and executed end-to-end test automation using **Selenium** and **Pytest**, ensuring robust coverage of critical workflows.
- Designed a maintainable test framework with modular test cases, significantly reducing regression testing time.

Load/ Performance Testing (Jmeter Project Video)

https://jmeter-video.netlify.app/

- Designed and executed **load tests** using **JMeter** to assess application scalability and response under high user traffic.
- Generated detailed performance reports and recommended optimizations to enhance system throughput and stability.

API Testing (Postman Project Video)

https://postman-video.netlify.app/

- Performed HTTP methods testing (GET, POST, PUT, DELETE) in Postman to validate RESTful API endpoints.
- Created dynamic tests with assertions to verify status codes, response times, and data accuracy for robust API quality assurance.

Skills: **Technical Skills:**

- **Programming Languages:** Python, JavaScript, SQL
- **Testing Tools:** PyTest, Selenium WebDriver, Postman, Newman, Apache JMeter
- **Project Management Tools:** Jira, Git, Azure DevOps
- **Web Technologies:** HTML5, CSS3, Bootstrap, WordPress, Netlify

Other Skills:

- Manual Testing, Teamwork, Management, Problem-Solving.

Education: **B.S.S Honors in Economics (**2024)
National University (M.C College) Bangladesh.

Alim Examination (HSC) 4.56 out of 5 | 2018
ShahJalal Jameya Islamia Kamil Madrasah, Sylhet, Bangladesh.

Dakhil Examination (SSC) 4.43 out of 5 | 2016
ShahJalal Sattaria Islamia Dakhil Madrasah, Sylhet, Bangladesh.

Projects: https://seleniumloginpytest.netlify.app/
- Created automated tests using Selenium and Pytest, leveraging parameterization to execute login scenarios with multiple data sets.
- Improved test efficiency and coverage by dynamically handling various user credentials within a single test framework.

https://allurereportpytest.netlify.app
- Generate HTML Report for Automation Testing Selenium Pytest Project.

https://pytestproject.netlify.app
- Generate Allure Report for Automation Testing Selenium and Pytest Project.

https://jmetertestresult.netlify.app
- Generate HTML Report for Load Testing JMeter Project.

https://www.saassociatestravels.com/
- Developed and maintained a responsive, user-friendly travel website using WordPress to showcase services and improve client engagement.

https://alfuzayeldot.netlify.app/
- Built a responsive and visually appealing web page using **HTML**, **CSS**, and **Bootstrap**, demonstrating expert-level front-end development skills and form design.

Certification:
- Diploma in Software Testing | Oct 2024
Alison Online Platform

- QA Techniques and Methodologies | Dec 2024
Alison Online Platform

Hobbies:
- Coding & Learning New Technologies, Online Courses, Sharing Knowledge, Driving.

Language Skills:
- English, Bangla
